MEMORANDUM FOR: Director of Communications

SUBJECT: Requirement for Special Projects
Support in Far East

1. During the recent Special Project activity in [REDACTED], the customary excellent Communications support was provided via the [REDACTED] system. However, one problem area existed in exchanging precedence traffic between [REDACTED] and [REDACTED]. The aircraft arrivals and departures in which [REDACTED] and [REDACTED] stations were involved, generated traffic which consistently required expedited delivery in view of the complicated coordination and political approvals needed on short notice. The exchange of traffic of this nature between [REDACTED] sometimes occurred after arrival of the aircraft at their destination, in spite of, the dedicated efforts of the Communications people involved.

2. Communications representatives from the Office of Special Activities have informally discussed this problem with personnel in OC-T. The activation of a [REDACTED] link between [REDACTED] during Project Activities appears possible and would solve our problem. Our next period of activity is tentatively scheduled for mid-September. It is requested that necessary action be taken to provide this additional Communications support during periods of Project Activity in [REDACTED]. The Office of Special Activities is prepared to provide supplementary personnel on TDY and to release crypto equipment from its allocation, as necessary, to assist in meeting this requirement.
